

# MathFLIX CHALLENGE

## Table of Factors

Complete your own table of factors and put a P next to the numbers that are prime. Then answer these questions:

What number has the most factors?

How many many of the numbers below are prime?

How many even numbers are prime?

Fac-tors	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
