## MathFLIX Challenge

Using $\mathbf{y}=\mathbf{m x}+\mathrm{b}$ : Runners $1 \& 2$

The slope of a line, $m$, is its rise over run, or

$$
\mathrm{m}=\frac{\text { change in } \mathrm{y}}{\text { change in } \mathrm{x}}
$$

The y -intercept of a line, $b$, is the point at which a line crosses the y axis. Using the graph below and the equation $y=m x+b$, complete the problems below.

## Runner 1:

Slope: $\qquad$
Equation: $\qquad$
How far was runner 1 after 1 hour? $\qquad$ After 2 hours? $\qquad$

| X: HOURS | 1 | 2 | 3 | 4 | 5 | 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Y: MILES |  |  |  |  |  |  |

## Runner 2:

Slope: $\qquad$
Equation: $\qquad$
How far was runner 2 after 1 hour? $\qquad$ After 2 hours? $\qquad$

| X: HOURS | 1 | 2 | 3 | 4 | 5 | 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Y: MILES |  |  |  |  |  |  |
